Education

Bachelor of Technology in Computer Science

2021 – 2025 | Bhopal, India

Truba Institute of Engineering and Information Technology

CGPA : 7.99

Higher Secondary Education (Class XII)

2020 – 2021 | vidisha , India

CBSE BOARD , percentage : 81 %

Skills

Programming Languages & Libraries: — Python, C++, Scikit-learn

Web Frameworks & APIs: — Flask, REST APIs

Databases: — MySQL

Containerization & DevOps: — Docker, Git

Concepts: — Object-Oriented Programming (OOP), Exception Handling , Machine Learning algorithms

Agentic AI & LLM: — LangGraph, Groq API, Prompt Engineering, Tool Orchestration, RAG (familiar)

Data Analysis & Visualization: — Pandas, NumPy, Matplotlib

Projects

ResumeIQ — Agentic Resume Analyzer

- Built a stateful agentic AI pipeline using LangGraph with 5 nodes (extraction, agent, tools, analysis, chat) that orchestrates 3 external APIs to analyze resumes against job descriptions.
- Implemented tool orchestration where an LLM autonomously decides which tools to invoke - an ATS keyword checker, Adzuna job market API, and YouTube Data API — based on identified skill gaps.
- Designed a multi-model architecture using llama-3.1-8b-instant for structured extraction and a 20b model for analysis, doubling the effective token budget while maintaining output quality.
- Built session-based chat memory allowing candidates to ask follow-up questions with full resume context preserved across turns.
- Deployed full stack application with Flask backend on Render and single-page frontend on Netlify.

Smart Banking

- Developed a Flask-based backend system for credit risk and customer lifetime value prediction.
- Integrated machine learning models into backend APIs for real-time predictions.
- Designed and managed relational data using MySQL.
- Containerized backend services using Docker for reliable deployment.

Professional Experience

Web Development Intern

06/2025 – 08/2025

Scoutbizz International

- Worked on production-level web applications and client websites.
- Customized Shopify storefronts using HTML, CSS , and liquid templates.
- Collaborated with designers and developers to improve website performance and UI.

Certificates

Microsoft Certified : Azure Fundamentals
